

E-WASTE RECYCLING

E-waste is a popular, informal name for electronic products nearing the end of their "useful life." Computers, televisions, VCRs, stereos, copiers, and fax machines are common electronic products. Many of these products can be reused, refurbished, or recycled. Unfortunately, electronics are one of the fastest growing segments of our nation's waste stream.

Disposal fees for some items may apply, please contact a recycling facility.

Santa Clara County

Recycling Hotline
